

JOHANN ALECKSANDREI G. FACTORA

Computer Engineering

Phone: +63 949 688 2678 **Address:** San Miguel, Mexico, Pampanga
Email: rencatez@gmail.com

PROFESSIONAL SUMMARY

Motivated Computer Engineering student with a strong focus on software development and backend systems. Proficient in building applications using technologies such as Python, Flutter (Dart), Next.js, and HTML, with a solid understanding of database integration and system design. Gained hands-on experience in technical support and networking during an internship at Clark International Airport Corporation (CIAC) – MIS Department, strengthening problem-solving skills and real-world system understanding.

Skilled in writing clean, efficient code and developing scalable solutions, with a strong foundation in programming and software architecture. Demonstrates strong analytical thinking, adaptability, and a collaborative mindset, with a keen interest in backend development, APIs, and full-stack applications.

EDUCATION

Bachelor of Science in Computer Engineering
University of the Assumption | 2021 – 2026

Senior High School / High School
Holy Cross College | 2015 – 2021

PROFESSIONAL EXPERIENCE

Intern – MIS Department (Technical Support & Networking)
Clark International Airport Corporation (CIAC)

- Provided technical support for hardware, software, and network-related issues
- Assisted in troubleshooting network connectivity (LAN/Wi-Fi) and system access problems
- Supported IT staff in maintaining computer systems and network infrastructure
- Assisted in basic configuration and setup of devices and workstations
- Gained exposure to enterprise-level IT operations and support workflows

TECHNICAL SKILLS

- Python, HTML, Flutter (Dart), Next.js Basics, Java, HTML
- Networking: LAN/Wi-Fi troubleshooting, basic network setup, connectivity diagnostics
- AI-Assisted Prompting
- Adaptability and Collaborative Teamwork

CERTIFICATES

CEA Research Colloquium 2025-2026	Basic Occupational Safety and Health 2025
Participant	Training Course with 2 hours Training of Trainer TOT

SEMINARS & EVENTS ATTENDED

- Level Up Pioneering Computer Engineering in a Digital World | March 2025
- Python-Powered Robotics: From Basic Circuits to Intelligent Systems | March 2025
- ALAB Interactive Robotics Museum Tour | March 2025
- Innovate and Inspire The Role of Computer Engineering in Shaping Tomorrow's Technologies | October 2024
-
